LEASING MONEY

Many business firms do not own their buildings or equipment. They lease them. They do this for tax purposes — also to retain funds needed in their business. What does this have to do with banking? Well banks LEASE (lend) MONEY and you the LESSEE (borrower) can use this money for the same purpose as the business man — to save money and to make money. In this kind of transaction everyone gains — the borrower — the creditor — the bank. It is CONSTRUCTIVE and that is the kind of business Mechanics likes. If you have any problems related to this sort of thing why not come in and discuss them with us. There is no obligation and we shall be most happy to see you.

Chamber Chatter

By IRENE GROVE

Notes from your vacationing Chamber manager back in Kansas . . . written in the Hutchinson, Kansas, Chamber of Commerce office.

What makes a city and a chamber of commerce, whether it be Hutchinson, Kansas, or Albany, California? Here on the flat plains of the Midwest, the skyline is marked by huge grain elevators instead of the sight of Bay Bridge and the hills of the surrounding area. The feeling here is of space . . . wide streets and spacious yards. There is the dry heat of the pavement and sidewalks with none of the cooling breezes from the Bay to refresh you. You know that something else is missing and suddenly you realize it is the color of the flowers that you have taken for granted in your own city of Albany. Hutchinson is a bustling business center surrounded by wheat fields. (May "yours truly" admit a pang of homesickness for Albany with its friendly merchants, friends and all the things that make up my city.)

But what is a city and a chamber of commerce? It is the florist on the corner, the small coffee shop where you get a cup of coffee, the busy superintendent of schools preparing for the close of the schools for the summer, the newspaper office where they are rushing to finish the copy for the next edition . . . it is the people in these places of business not too busy to stop to talk about their town and what they want to do to make it a better place to work and live. This is the same in Hutchinson, Kansas, or in Albany, California . . . this is the true spirit of your city and your chamber of commerce.

The Chamber of Commerce office may have a staff of five or one manager alone but they are both the front door to your community . . . your service organization . . . there are the maps, the information and offer of assistance on community projects.

Back with you next week . . . Your Chamber of Commerce Manager.

COUNCIL APPROVES MARKET REZONING

The city council at its regular meeting Monday evening unanimously approved the request for rezoning of Lots 17, 18 and 19 of Block 29, Regents Park Map No. 6, and set the date for a public hearing for Monday night, June 15.

The request had met some objection the previous week, Mrs. Zahn objecting to the fact that the request called for "Six-Story" Commercial. The Albert-Lovett Company which had made the original request, advised the council by letter that a "Three-story Commercial" rezoning would be acceptable and the hearing date was set forthwith.

The company is planning the erection of a building to house a super market on the property listed, running through from San Pablo Avenue, where the property already is zoned for six-story commercial. The plan is to install a parking lot to service the market on the adjoining property to the north.

In other business the council heard a report from the city attorney and the city engineer relative to a previous request from a group desiring to open Acton Street through from Gilman to the north. The council was advised of the procedure necessary if such an opening were to be carried through. A protest was received from Brother T. Jerome, St. Mary's College High School, against the plan for the reopening, which would have to be made through school grounds. The matter was held over for two weeks to permit the parties interested to get together on a possible compromise.

On the matter of a possible donation by the city to the Albany Senior Citizens' Foundation of a building site in Memorial Park, the city attorney is to meet with representatives of the Foundation and explain the possible requirements if such a donation were to be made. A public hearing will be set as soon as definite plans may be developed.

CHRISTIAN SCIENCE

The scientific basis of spiritual healing will be brought out at Christian Science services Sunday in the Lesson-Sermon entitled "God the Only Cause and Creator."

Correlative selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include (313:23:26): "Jesus of Nazareth was the most scientific man that ever trod the globe. He plunged beneath the material surface of things, and found the spiritual cause."

The Golden Text is from Revelation (15;3): "Great and marvelous are thy works, Lord God Almighty; just and true are thy ways, thou King of saints."

WHAT'S DOING

th more and more cars on the road, safe driving is a part of any telephone man's job. Take our telephone stallers for example. Each installer takes a special rse in "defensive driving" before he gets behind the eel of any telephone company car or truck. And to ke sure he doesn't forget the things he's learned, he es a check-up ride periodically, and a complete driving t every 2 years. What's more, he even has his eyes ted every 3 years. Other telephone people who drive mpany cars also get training in "defensive driving". th extra care helps us to be better drivers and do part to make the streets safer for everyone. And believe we serve you best when we serve you safely.

mertime is a popular time for moving. And if you're ning to move soon, here's a reminder. When we tall your new service, we're glad to put in an extena phone (or two or three) at no extra installation rge. The charge to move your present phone covers installation cost of all the extensions you'll need your new home. **Pacific Telephone**

A Festive Summer Dessert

If you're due to play luncheon hostess to your club or church group in the near future, here's a suggestion to make party preparation easier and faster. Serve a new improved Simple Simon frozen cream pie for dessert . . . try the brand new Butterscotch flavor or the other favorites of chocolate, strawberry, lemon and coconut.

A new technique, especially developed for frozen pies, produces a crust that's flaky and tender, golden-brown, with the flavor and texture of the best home-baked crusts. Another important advance . . . the crust stays flaky and tender throughout a wide range of temperatures.

The secret behind the high quality and good flavor of these pies lies in experienced bakers and high quality ingredients, such as imported Dutch chocolate, fresh lemon juice, slices of California strawberries and freshly toasted coconut. Each pie measures 8 inches in diameter and serves 6 generously.

Keep your freezer well stocked with Simple Simon's frozen cream pies, ready for any occasion during the coming months. They're ideal for dinner-time desserts and for between-meal snacking. Easy, too . . . just thaw 45 minutes or less and serve. When the weather's hot, try serving your pie not quite thawed for a cooling, frosty treat.
